Professional Summary

Python Full Stack Developer with hands-on training in building responsive, scalable web applications using **Python, Django, React.js, MySQL, HTML, CSS, and JavaScript**. Skilled in developing role-based interfaces, RESTful workflows, and reusable UI components. Strong foundation in **SQL** (LeetCode SQL 50 Badge, 5-Star HackerRank rating), debugging, and Agile-style project-based learning. Seeking a Full Stack Developer role to deliver efficient, user-focused, production-ready applications.

Key Skills / Key Highlights

- **Languages:** Python, JavaScript, SQL
- **Frontend Development:** React.js, HTML5, CSS3, JavaScript (ES6+), React Router, React Hooks (useState, useEffect, useRef), Responsive Web Design, Flexbox, CSS Grid, Media Queries
- **Backend Development:** Django, Python (OOP), REST API fundamentals, MVC Architecture
- **Database:** MySQL, SQL Query Optimization, Relational Database Design
- **Tools & Platforms:** Git, GitHub, VS Code
- **Core Strengths:** Full Stack Web Development, Problem-Solving, Debugging, Role-Based Access Design, UI/UX Optimization, Cross-Device Compatibility

Internship / Training Experience

Python Full Stack Trainee

Feb 2026 – Present

Dhee Coding Lab

Bengaluru, India

- Completing intensive full-stack training across **6 core technologies** — Python, Django, React.js, SQL, HTML/CSS, and JavaScript — through hands-on, project-based learning.
- Building and deploying responsive, user-friendly web interfaces using **React.js**, applying modern component-based architecture and state management practices.
- Strengthening backend development skills by designing **Django**-based application logic and integrating **MySQL** databases for data persistence.
- Enhancing debugging and problem-solving proficiency by resolving **50+** hands-on coding and SQL exercises during structured training modules.

Projects

Student Attendance Web Application System

HTML, CSS, JavaScript

Live Demo

- Engineered a responsive, multi-page attendance management system using **HTML, CSS, and JavaScript**, improving accessibility across desktop and mobile devices.
- Designed and implemented **3 distinct role-based interfaces** (Administrator, Teacher, Student), streamlining attendance tracking and reducing manual record-keeping effort.

E-Commerce Web Application

React.js, JavaScript, HTML, CSS

Live Demo

- Developed a fully responsive e-commerce platform in **React.js**, architecting reusable components that reduced code duplication and improved maintainability.
- Implemented seamless client-side navigation using **React Router**, enabling smooth transitions across product, cart, and checkout views.
- Optimized UI responsiveness across **3 device categories** (desktop, tablet, mobile) using CSS Flexbox, Grid, and Media Queries.
- Leveraged **React Hooks** (useState, useEffect, useRef) to manage dynamic state, enabling real-time product search and live shopping cart updates.

Education

B.Tech in Computer Science and Engineering

Aug 2022 – May 2025

Sanskriti University, Mathura

CGPA: 7.33/10

Diploma in Electrical Engineering

Aug 2019 – May 2022

Sanskriti University, Mathura

CGPA: 7.98/10

Achievements & Certifications

- Earned the **LeetCode SQL 50 Badge** by successfully solving 50 SQL problem sets.
- Achieved a **5-Star Rating on HackerRank SQL**, ranking in the platform's top skill tier.
- Completed **Python Full Stack Development Training** (Python, Django, React.js, MySQL) — Dhee Coding Lab, Bengaluru.
- Certified **Python Web Developer (Grade A)** — Infosys Foundation Finishing School for Employability, ICT Academy.
